MONEY TO LOAD

The counties of Sedgwick, Summer, Cowley and Butler comprise an area of the best agricultural land west of the Mississippi valley. The Arkansas river runs diagonally through the counties named, forming of likely an extractive valley ranging rous seven to twelve miles in width. Other streams of less magnitude, such as the Little Arkansas, Ninnescah, Wainat and Whitewater rivers, Slate, Bluff, Spring, Gypsum, Chishoins and Cowskin creeks, diversity the country with fertile valleys. The soil of the valley and uplands is a rich sandy learn, exversitect in depth. Vegetation of all kinds is unsurpassed. Climate temperate, equable and healthy. Thousands of acres of land are open to settlement under the pre-emption laws for the sale of the George Indian lands, which are mesurpassed in fertility in any section of the State, and in no other part can change homes be purchased with all the advantages of good soil, climate and water. Our people are enterprising, and made up of the go-ahead and best climates from the east, and in point of culture and society, are equal to any of the older communities of other states. The young and greening city of Wichita, now with a population of \$,500 inhabitants, and properly called the Queen City of the West, presents almost unequaled inducements for money investments to all business enterprises, and more expecially to manufactories.
